#### SAFA has no intentions of accessing term markets during the month of May 2018.

Following the release of the SA State Mid-Year Budget Review (MYBR) on 21 December 2017, SAFA released its updated indicative 2017-18 Funding Program. SAFA outlined a gross long and short term funding requirement of \$3.6 billion. This revision is \$1.2 billion lower than the forecast when the 2017-18 budget was released on 22 June 2017. To date SAFA has issued \$2 billion of gross long term funding versus a requirement for \$1.6 billion. An additional \$400 million was raised as pre-funding in line with SAFA's revised liquidity policy to meet refunding requirements.

The SA State election was held on 17 March, with a new Government sworn in on 21 March. There is no formal timeline for the 2018/19 State Budget, although it is expected to be pushed back into Q3 2018. SAFA will keep markets informed of any changes to its funding requirements.
